Open-Enrollment Classes 2023

North America

Operators Technical Classes

Offered to enhance operators' competence leading to enhanced plant availability and productivity. With site-specific simulation software, operators gain the skills to confidently operate their plants.

Controls Maintenance Classes

Provide in-depth knowledge about the maintenance and troubleshooting of various control systems. Content enriched with hands-on workshops, site walk-downs and final assessment.

Skills Development Programs

Customized training programs to accelerate the development of competent operators and maintenance personnel. A combination of classroom, practical and onsite on-job-training with continuous assessment provide the best return on corporate training budget.

Remote Training & Online Resources

Save on training cost by cutting travel and living expenses. Our proven remote training platform provides a learning environment matching that of in-person classes. With our Learning Management System, customers can track their personal learning and credits for continuous development

Our classes cover the following platforms:

Nexus OnCore

SecurityST (OTArmor)

Mark VI / VIe

EX2100/2100e

LS2100/2100e

Woodward (Micronet,505, AtlasPC)

Visit our website for more details about enrollment into our training classes
