

Digital Solutions Nexus Control Technical Training Offerings Courses

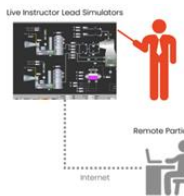

With over 50 years of technical training experience BH Digital Solutions (DS) has unbeatable track record empowering customers through technical courses. Digital Solutions offers a wide range of technical training courses ranging from condition monitoring & diagnostics, inspection technologies & measurement technologies as well as control systems. Our techniques have received great recognitions from major clients in over 70 countries with more than 10 languages for training activities conducted onsite, at BH training locations or on-line. With BH Digital Solutions, clients are confident their teams are staying up-to-date with the latest technologies.

Instrumentation & Control Training

A variety of courses offering in-depth knowledge of different plant control and measurement systems. With strong focus on troubleshooting and maintenance techniques, these courses are excellent fit for instrumentation, maintenance and control professionals.

- Mark VIe Control Systems
- Cyber Security Solutions
- EX2100e Excitation Control System
- Generator Protection Panel
- Centrifugal compressors
- Centrifugal pumps

Remote Learning courses

Remote training service connects your staff with our industry leading instructors without the need for expensive travel. Gain remote access to our virtual classroom in our instructor led skill development courses

Operators Technical Training

Courses offered to enhance operators' competence which directly reflects plant availability and reliability. Several courses are offered to operators at different levels for a variety of applications

- DCS/BOP operations using the Mark VIe or Nexus Control Platforms
- Gas/Steam Turbine using Mark VIe Control System
- Compressor control
- Historian & HMI operation
- Excitation Control and Generator Protection
- Gas/Steam Turbine operation fundamentals

Skills Development Programs

Long-term specialized training programs related to control systems engineering and maintenance. These programs accelerate the development of customer talent pool through a combination of classroom, practical and onsite on-job-training for maximum return on training investment.
